Literally translated

Our homes and possessions are extensions and reflections of ourselves and our own unique personalities. Did you know that according to the Principles of Feng Shui, your Home and all of your Possessions are an extension of your Physical Body, and there are specific body parts associated with specific sectors of your Home?

For Example: your * Hands * correspond to the
**** Spirituality * Knowledge * & Wisdom Sector * of your Home***

If you store a lot of 'junk' or 'clutter' in this sector of your home or the flow of energy is blocked in some way, the physical result may be stiffness in your fingers & wrists, or an inability to get things done, your Spiritual Growth & Development may also be challenged. Similarly, if the energy is not flowing harmoniously throughout your entire home, you may experience other physical symptoms in your Body as a result.
